## TECHNICAL SKILLS

---

**Programming Languages:** HTML5, CSS3, JavaScript, TypeScript, SQL.

**Frameworks & Libraries:** React, React Native (Expo), Next.js, Tailwind/Nativewind CSS.

**Backend & Database:** Node.js, Express.js, PostgreSQL, MongoDB.

**Tools & Platforms:** Git/GitHub, VS Code, Cursor, Postman, Ubuntu/Linux, Vercel, EAS, Vite.

**Testing:** React Testing Library.

## EXPERIENCE

---

### React Native Intern

IT Futurz | Aug 2025 – Oct 2025

- Developed and enhanced features for delivery portal mobile application using React Native (Expo).
- Implemented real-time communication using sockets and integrated map-based functionality for location tracking.
- Worked on UI development, state management and backend API integration to deliver end-to-end features.
- Collaborated in developing, debugging and optimizing application with backend team.

## PROJECTS

---

### Univent – An Event Management Application ([live](#)) ([code](#))

- **Tech-Stack:** React-Native, Expo, TypeScript, Node.js, Express.js, PostgreSQL (Supabase), Vercel, Jest.
- **Features:**
  - Engineered a real-time event discovery and registration platform that reduced search time by 20% and streamlined the user's registration flow.
  - Implemented a user authentication system with push notifications for event reminders, which led to a slight increase in user engagement.
  - Developed a responsive user interface with haptics, delivering a seamless and intuitive navigation experience on mobile devices.

### AxoKaze – A Unified Dashboard Application ([live](#)) ([code](#))

- **Tech-Stack:** React, TypeScript, Vite, Tailwind CSS, Zustand, React Router, Axios, React Hook Form, Zod, Recharts, Vitest.
- **Features:**
  - Built a web application integrating Pokédex data, F1 race tracking, real-time weather forecasts and user profile management in a unified interface.
  - Implemented secure authentication with email/password (OTP verification) and Google OAuth 2.0 integration, featuring JWT-based auto-refresh tokens.
  - Integrated multiple external APIs (PokéAPI, Ergast F1 API and WeatherAPI) with optimized data fetching and caching strategies using Zustand for state management.

## EDUCATION

---

**Parul University (Parul Institute of Technology)**

Bachelor of Computer Science & Engineering

**Vadodara, Gujarat, India**

November 2021 – May 2025
